## Local scientific committee

### Presidents

Marc Coppens  
Xavier falières

### Members

An Teunkens  
Björn Stessel  
Luc Van Outryve  
Els Van Caelenberg  
Jan Eshuis  
Anna Panacewicz  
Eric Belt

Central theme of the meeting:

## **I'm taking you home tonight !!!**

Ambulatory surgery has experienced tremendous growth during recent years. We continue to do more complex procedures and treat more complex patients, some of whom are vulnerable such as the elderly, children, children with special needs, mentally disabled and many more. Thanks to innovation in surgery, anaesthesia and nursing but above all thanks to interdisciplinary teamwork we can guarantee safe home discharge for everybody all over the world!!!
