# Barcelona Oculoplastics

November, 14th & 15th

INTERNATIONAL CONGRESS

**BOC  
2025**

## Executive Comitee

Dr Miguel González-Candial

Dr Marco Sales

Dr Joan Oliveres

**IMO**  
GRUPO MIRANZA

**MIRANZA**

## Learning objectives

- **Observe live surgeries**, narrated by leading international experts, and understand the technical and strategic nuances in real time.
- **Stay up to date** on thyroid eye disease with a multidisciplinary approach: new targeted treatments, precise inflammation control, and surgical advances in functional rehabilitation.
- **Develop** clinical judgment in complex orbital pathology, addressing tumors, inflammation, or trauma with surgical decisions tailored to each situation.
- **Master** eyelid reconstruction in periocular oncology, balancing surgical intervention, aesthetics, and oncological preservation in decision-making.
- **Explore** a 360° approach to oculofacial aesthetics, combining science, technology, and artistry in fillers, lasers, and regenerative therapies with precision and respect for the gaze.
- **Deepen** your knowledge in upper and lower facial aesthetic surgery, including advanced blepharoplasty, brow lift, cosmetic ptosis, and new minimally invasive techniques.
- **Be inspired** by BOC **keynote lectures**, offering new perspectives, clinical innovation, and reflection for the future of practice.
- **Take part in practical workshops** on oculofacial rejuvenation, featuring cutting-edge techniques in fillers, CO2 laser, ultrasound, and regenerative technologies.
